Camping Tips – Remember To:

* Plan Ahead and Be Prepared

Research the area you are visiting, find out what facilities are provided and any activities that you can participate in. Make sure to take all the necessary clothing items that are needed for the activities and plan ahead for meals, taking food and containers for carrying it in.

* Travel and Camp on Durable Surfaces

When you get to camp, find an area that is the most level and has no debris, so the bottom of your tent doesn't get ripped.

* Dispose of Waste and Rubbish Properly

Bring extra bags to collect your rubbish in and take it home with you if no bins are supplied. Lock up your food and rubbish when you leave your camp and at night. Left over food can attract animals. Don't empty your washing up waste near a water source as it may pollute the waterway.

* Minimise Campfire Impacts

Check the regulations before you leave to see if there are any fire bans. If using a fire, use a fire ring and only dead or downed wood. Don't cut down any trees. Make sure you put it out completely after every use.

Camping Tips – Remember To:

* Leave What you Find

Admire the nature, but leave the shells, rocks and other natural objects where you find them. They are homes or shelters for many creatures. Take photos of them if you want a souvenir.

* Warnings

Check and heed any weather or bushfire warnings. Be prepared for bad weather and be ready to leave in a hurry if a flood occurs. If you wish to have an open fire, check the area you are visiting allows fires as at certain times of the years, they may not due to bushfires. Check tides before driving on beach. Always let someone know where you are going and when you are planning on returning.

* Respect Wildlife

Observe wildlife from a distance to avoid startling them. Don't feed the wildlife as it could cause the animal to become reliant on humans or cause them to become ill. Store all food in containers where animals cannot access them.

* Be Considerate

When permits are necessary, obtain them in the correct manner. Respect stories and customs of sites. Keep noise to a minimum and let nature's sounds prevail.
